

One Hundred Tenth Congress
of the
United States of America

AT THE SECOND SESSION

*Begun and held at the City of Washington on Thursday,
the third day of January, two thousand and eight*

An Act

Making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2008, and for other purposes.

*Be it enacted by the Senate and House of Representatives of
the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the “Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009”.

SEC. 2. TABLE OF CONTENTS.

The table of contents for this Act is as follows:

DIVISION A—CONTINUING APPROPRIATIONS RESOLUTION, 2009
DIVISION B—DISASTER RELIEF AND RECOVERY SUPPLEMENTAL APPROPRIATIONS ACT, 2008
DIVISION C—DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2009
DIVISION D—DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2009
DIVISION E—MILITARY CONSTRUCTION AND VETERANS AFFAIRS APPROPRIATIONS ACT, 2009

SEC. 3. REFERENCES.

Except as expressly provided otherwise, any reference to “this Act” or “this joint resolution” contained in any division of this Act shall be treated as referring only to the provisions of that division.

SEC. 4. EXPLANATORY STATEMENT.

The explanatory statement regarding this legislation, printed in the House of Representatives section of the Congressional Record on or about September 24, 2008 by the Chairman of the Committee on Appropriations of the House, shall have the same effect with respect to the allocation of funds and implementation of this Act as if it were a joint explanatory statement of a committee of conference.

DIVISION A—CONTINUING APPROPRIATIONS RESOLUTION,
2009

The following sums are hereby appropriated, out of any money in the Treasury not otherwise appropriated, and out of applicable corporate or other revenues, receipts, and funds, for the several departments, agencies, corporations, and other organizational units of Government for fiscal year 2009, and for other purposes, namely:

SEC. 101. Such amounts as may be necessary, at a rate for operations as provided in the applicable appropriations Acts for

[House Appropriations Committee Print]

**Consolidated Security, Disaster Assistance, and Continuing
Appropriations Act, 2009
(H.R. 2638; P.L. 110-329)**

**DIVISION C—DEPARTMENT OF DEFENSE
APPROPRIATIONS ACT, 2009**

OVERSEAS CONTINGENCY OPERATIONS TRANSFER ACCOUNT

For the Overseas Contingency Operations Transfer Account, no funds are provided for fiscal year 2009.

UNITED STATES COURT OF APPEALS FOR THE ARMED FORCES

For the United States Court of Appeals for the Armed Forces, \$13,254,000 is provided for fiscal year 2009.

ENVIRONMENTAL RESTORATION, ARMY

For Environmental Restoration, Army, \$457,776,000 is provided for fiscal year 2009.

ENVIRONMENTAL RESTORATION, NAVY

For Environmental Restoration, Navy, \$290,819,000 is provided for fiscal year 2009.

ENVIRONMENTAL RESTORATION, AIR FORCE

For Environmental Restoration, Air Force, \$496,277,000 is provided for fiscal year 2009.

ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

For Environmental Restoration, Defense-Wide, \$13,175,000 is provided for fiscal year 2009.

ENVIRONMENTAL RESTORATION, FORMERLY USED DEFENSE SITES

For Environmental Restoration, Formerly Used Defense Sites, \$291,296,000 is provided for fiscal year 2009. The Department is urged to support on-going unexploded ordnance remediation programs in Vietnam. The adjustment to the budget for Environmental Restoration, Formerly Used Defense Sites is shown below:

Unexploded Ordnance Remediation	\$8,500,000
Other Unfunded Requirements	25,000,000

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

For Overseas, Humanitarian, Disaster, and Civic Aid, \$83,273,000 is provided for fiscal year 2009.

COOPERATIVE THREAT REDUCTION ACCOUNT

For the Cooperation Threat Reduction Account, \$434,135,000 is provided for fiscal year 2009. This appropriation is provided for the same purposes as prior year appropriations for the "Former Soviet Union Threat Reduction" account. The name change is being made to reflect the new, broader focus of the program.

TITLE III—PROCUREMENT

For Procurement, funds are to be available for fiscal year 2009, as follows:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	RECOMMENDED	CHANGE FROM REQUEST

SUMMARY

CONGRESSIONAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional interest items for purposes of the Base for Reprogramming Department of Defense form (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in these materials.

ACQUISITION COST

The Department of Defense has exhibited an alarming trend in funding acquisition programs below full cost. In recent years, the Littoral Combat Ship, the Future Combat Systems, the Armed Reconnaissance Helicopter, and the Electromagnetic Aircraft Launching System have all required funds to be reprogrammed in an execution year to correct shortfalls. Additionally, the Joint Strike Fighter, the Future Combat Systems, the Expeditionary Fighting Vehicle, the Global Hawk Unmanned Aerial Vehicle, and the Space Based Infrared Satellite System have all required restructuring by the Department during the budget formulation period. Funds used to correct these shortfalls typically are taken from other acquisition programs. This trend is disturbing and ultimately reduces overall stability in the Department’s acquisition programs.

The causes for this practice are varied and many. In some cases, the Department violates its own policy by not funding programs to the estimate provided by the Department’s Cost Analysis Improvement Group (CAIG), which is required by statute to conduct an independent cost estimate on major acquisition programs. In other cases, the cost estimates are flawed, missing key elements of cost. Cost growth or technical challenges are frequently cited as a reason for funding shortfalls, although the fundamental causes can usually be traced back to not funding to the proper estimate from program inception. A major contributor to this problem is that lower than reasonable proposals for programs from contractors are often-times accepted by the Department as an opportunity to get major programs started because, once started, history has proven that major programs are rarely terminated.

By underfunding programs, the Department lengthens development schedules, costs the taxpayers additional dollars, and delays fielding critical capabilities to our Nation’s Armed Forces. The Department must be more accountable and fiscally responsible. Since the Department takes the time and expends the resources to conduct independent cost estimates, it should use that information in formulating budgets for the programs. The Department is directed to provide a report to the congressional defense committees that shows which Acquisition Category I (ACAT I) programs did not use the CAIG estimate as the official program estimate at a milestone decision and an explanation as to why the CAIG estimate was not used. The report should encompass the period from fiscal year 2004 through fiscal year 2008 and be submitted prior to March 1, 2009.

FUTURE COMBAT SYSTEMS (FCS) RESTRUCTURE

The Future Combat Systems (FCS) remains the Army’s top priority modernization program, designed to provide rapidly

deployable, highly survivable and lethal forces. While the program has struggled with changing requirements and cost growth in recent years and undergone multiple restructures, support remains strong for the Army's goal to create a more capable and modern force. Most recently, the Army informed Congress of its intent to change the near-term focus of FCS by fielding available capabilities to Infantry Brigade Combat Teams, which are in high demand in the Global War on Terror, and deferring the fielding of these technologies to Heavy Brigade Combat Teams, which were originally slated to first receive the initial FCS spin outs. In support of this program shift, the Army has requested an adjustment to its fiscal year 2009 budget request for FCS from within program funds. Funding in the bill supports the Army's plan to field proven technologies that provide immediate enhanced capabilities to the warfighter and fully supports the Army's requested program adjustments, as detailed below.

[In thousands of dollars]

	<i>Amount</i>
Weapons and Tracked Combat Vehicles, Army:	
Line 8, FCS Spin Outs	-\$137,679
Line 9, FCS Spin Outs Advance Procurement	+28,479
Research, Development, Test and Evaluation, Army:	
Line 89, Non Line of Sight Launch System	+8,600
Line 91, FCS Manned Ground Vehicles & Common Ground Vehicle	+11,000
Line 92, FCS System of Systems Engineer & Program Management	+5,500
Line 93, FCS Reconnaissance [UAV] Platforms	+11,000
Line 95, FCS Unattended Ground Sensors	+4,100
Line 96, FCS Sustainment & Training R&D	+19,000
Line 97, Modular Brigade Enhancement	+38,500
Research, Development, Test and Evaluation, Navy:	
Line 96, Joint Tactical Radio System-Navy	+11,500

ACQUISITION WORKFORCE DEVELOPMENT FUND

Section 852 of the National Defense Authorization Act for Fiscal Year 2008 established the Department of Defense Acquisition Workforce Development Fund (AWDF) to finance recruiting, training, and retention of acquisition personnel. Funding for the AWDF is generated by taking funds appropriated for other programs. In fiscal year 2008, the planned funding level is approximately \$258,000,000 and it will grow to \$600,000,000 in fiscal year 2011 and thereafter.

There is concern about sustaining a trained, capable and adequately manned acquisition workforce, particularly as the Department faces a wave of retirements over the coming years that may leave the workforce without the most experienced members. However, there are problems with the way the AWDF is currently constituted. These concerns include:

—AWDF funding is not based on an estimate of the program's requirements;

—Projected use of the funding is not provided in advance to Congress;

—The accounting process skews the obligation and expenditure data on appropriations used to finance the AWDF;

—Expiring funds may be used to finance the AWDF thereby extending, or effectively re-appropriating without congressional approval, those funds for up to two years beyond the original life of the appropriation.

The simple and straightforward solution to these problems is to bring the AWDF into the regular appropriations process. The Department is directed to include the funding required for the Acquisition Workforce Development Fund in its fiscal year 2010 budget request.

GOVERNMENT ACCOUNTABILITY OFFICE

For each of the past six years, the Government Accountability Office has provided an assessment on a broad range of weapon systems that consists of (1) a macro analysis of how well acquisition programs are performing and reasons for that performance, and (2) specific analyses of individual weapon system programs. The report that results from this annual assessment has proven invaluable as an independent look at cross-cutting acquisition issues and in evaluating the status of individual weapon systems. This work has thus far been conducted under the Comptroller General's own authority. The Comptroller General is directed to perform the annual assessment of selected weapon system programs and to report the results of the assessment to the congressional defense committees by March 30th of each year.

JOINT STRIKE FIGHTER F-136 ENGINE DEVELOPMENT

The fiscal year 2009 budget request included no funding for the continued development of the F-136 engine as an alternate engine within the Joint Strike Fighter program. The bill includes \$430,000,000 for the continued development of this engine within the Navy and Air Force's Joint Strike Fighter development programs and \$35,000,000 for advance procurement items within the Aircraft Procurement, Air Force appropriation. The Secretary of Defense is once again directed to fully fund the F-136 engine development and procurement efforts in the fiscal year 2010 budget submission.

AIR FORCE ACQUISITION

The Air Force continues to experience significant difficulties in acquiring major acquisition systems in a timely and cost effective manner. From protests upheld by the Government Accountability Office (GAO) to numerous Nunn-McCurdy breaches, it is apparent that the acquisition process is seriously flawed and change is needed. As a starting point, the Air Force needs to ensure that its programs have well-understood requirements, manageable development cycles, realistic cost estimates, and adequate program funding for the entire development cycle. There are a number of remedies that would improve the Air Force's prospects in its acquisitions. Some examples are:

Disciplined use of tried and true systems engineering practices to ensure that a proposed system's performance requirements are achievable with available resources before beginning an acquisition program;

Establishing a clear business case for each program that is agreed upon by the warfighter, the comptroller, and the acquisition community;

Maturing technologies until they are ready for an acquisition program (separating technology development from acquisition programs);

Continuing to develop a skilled workforce capable of managing requirements trades, source selection, and knowledge-based acquisition strategies;

Basing programmatic decisions on demonstrated knowledge; and

Matching program manager tenure with the duration of the system design and demonstration phase of a program, and tailoring career paths and performance management systems to incentivize longer tenures.

The Secretary of Defense is directed to provide a report no later than March 31, 2009, to the congressional defense committees on the Department's plans to reform Air Force acquisition to address the problems that have continued to plague the acquisition process.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Department of Defense is directed to continue to follow the reprogramming guidance specified in the (House Report H. Rept. 110-279, accompanying the Fiscal Year 2008 Department of Defense Appropriations Act. Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement, and \$10,000,000 for research, development, test and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional interest items are established elsewhere in these materials.

REPROGRAMMING REPORTING REQUIREMENTS

The Under Secretary of the Department of Defense, Comptroller is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the statement of the managers accompanying the conference report on the Department of Defense Appropriations Act, 2006.

INTELLIGENCE, SURVEILLANCE AND RECONNAISSANCE

The Secretary of Defense notified the House and the Senate Committees on Appropriations of a number of urgent Intelligence, Surveillance and Reconnaissance (ISR) needs for fiscal year 2009 that were not contained in the budget request. In order to respond to these emerging requirements, an increase of \$750,000,000 is pro-

vided in operation and maintenance, procurement, and research, development, test and evaluation accounts. The following table includes procurement funds provided in support of this initiative.

[In thousands of dollars]

Line	Account	Item	
P-11A	APAF	Procure 24 C-12 Aircraft	\$360,000
P-63	PDW	SOF Deployable Nodes-M SOF Tactical Assured	
		Connectivity Systems	6,000
P-76	PDW	Additional Medium UAV	13,000
P-76	PDW	SOF Equipment for MQ-9	20,000

FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the table.

AIRCRAFT PROCUREMENT, ARMY

For Aircraft Procurement, Army, funds are to be available for fiscal year 2009, as follows:

KIOWA WARRIOR

The bill provides an additional \$42,000,000 for safety, performance, and weight enhancements for the Kiowa Warrior. The Army is directed to use these funds on projects which provide the greatest benefit for sustaining the Kiowa Warrior until the Armed Reconnaissance Helicopter is fielded.

FORT KNOX GODMAN ARMY AIRFIELD

Congress provided \$3,200,000 for the Fort Knox Godman Army Airfield Area Surveillance Radar in the Department of Defense Appropriations Act, 2008 (Public Law 110–116). Due to the increasing cost of this initiative, the Army no longer intends to purchase the radar and now plans to purchase comparable air traffic control equipment with the funding. The Army is directed to use the funds for this alternative purpose at Fort Knox Godman Army Airfield.

MISSILE PROCUREMENT, ARMY

HIGH MOBILITY MULTI-PURPOSE WHEELED VEHICLES (HMMWV)

There is concern with the threat of Soldiers and Marines becoming trapped in overturned HMMWVs. The Army and Marine Corps are encouraged to outfit deployed HMMWVs with a means of rapid emergency egress in the event that the vehicle's doors are inoperable.

LIMITATION ON SINGLE CHANNEL GROUND AND AIRBORNE RADIO SYSTEM (SINCGARS) PROCUREMENT

The bill includes \$87,288,000 for the procurement of SINCGARS radios. However, concerns remain about the ability of the Army to adequately manage contracts to fulfill increased operational requirements for SINCGARS radios. In particular, recent acquisition decisions and justifications by the Department of the Army raise questions about its procurement strategies, especially as they relate to the Joint Tactical Radio System (JTRS). Therefore, none of the funds in this Act shall be used for procurement of SINCGARS radios until the Secretary of Defense certifies to the congressional defense committees that any such procurement of SINCGARS radios will utilize full and open competition that will provide best value for Army radio requirements including consideration of multi-band, JTRS capable solutions.

SNIPER DEFEAT

There is concern over the Army's slowly evolving approach to providing materiel solutions to the field for Sniper Defeat. To date, the Army has not requested funds for Sniper Defeat in spite of the fact that this issue has been a major concern since the spring of 2006. In February 2007, the Vice Chief of Staff, Army directed that a soldier borne and vehicle/fixed site system be designated as programs of record. As of June 2008, the Army had neither designated a program of record for either the soldier or fixed site program nor had the Army programmed or budgeted any funds for either of these efforts. A notional program schedule for the soldier borne system revealed that initial procurement would not occur until the end of fiscal year 2010 at the earliest. This is an incorrect acquisition approach for what are essentially off the shelf, go to war systems. The Army is expected to budget sufficient funds to ensure all deploying units are equipped with both soldier borne as well as vehicle/fixed site capabilities during pre-deployment training as well as during their deployment.

AIRCRAFT PROCUREMENT, NAVY

For Aircraft Procurement, Navy, funds are to be available for fiscal year 2009, as follows:

Direct Squadron Support Readiness Training Program		3,200

F/A-18 SUPER HORNET

Shortfalls exist in the Navy's strike-fighter inventory caused by the aging of older tactical aircraft and the fact that the F-35 Joint Strike Fighter program will not begin to deliver carrier aircraft in significant quantities for several years. In the most optimistic scenario, the shortfall is approximately 69 aircraft and it could be well above that level. To ensure that the Navy has sufficient aircraft for the fleet, the Navy is encouraged to budget for a third multi-year procurement of Super Hornet aircraft beginning in fiscal year 2010. In addition, cost reduction measures which will yield future savings for this program should be explored.

WEAPONS PROCUREMENT, NAVY

MK-54 TORPEDO

The MK-54 Torpedo will combine features of several existing torpedo programs with updated processing and software to provide improved performance against modern day threats. Development and performance issues have significantly delayed the production of this weapon. The Navy has informed the House and the Senate Committees on Appropriations that the program has become backlogged to such a degree that \$23,000,000 of fiscal year 2008 funding will not be used for fiscal year 2008 torpedo production, but provided to another Navy priority. Increasing the lightweight torpedo inventory is the sixth highest unfunded priority of the Navy. Therefore, the Secretary of the Navy is directed to maintain this funding in the program and use it to finance lightweight torpedo requirements once the torpedo contractor demonstrates a proven production method for the MK-54 program.

MOBILE-USER OBJECTIVE SYSTEM (MUOS)

In late June 2008, Congress was informed that the Mobile-User Objective System (MUOS) program was encountering problems that would delay the program and the launch of the MUOS satellites. Due to this delay and the fact that the MUOS program's integration and test plan schedule is based on an Air Force satellite program that is several years behind schedule, the recommendation reduces the request by \$163,500,000 for the launch vehicle for the second MUOS satellite. However, the Navy has informed the Congress that despite the current delays to the program, funding may still be required in fiscal year 2009 to purchase the launch vehicle for the second satellite. As such, a reprogramming will be entertained if the Department of Defense determines that, despite the current delays, funding is required to procure a launch vehicle in fiscal year 2009.

LITTORAL COMBAT SHIP (LCS)

The bill includes \$1,020,000,000 for two LCS seaframes and a rescission of \$337,000,000 in fiscal year 2008 LCS funding. Additionally, funds and material from fiscal year 2006 can be used to supplement the fiscal year 2009 LCS program. Due to industrial base concerns, the Navy is directed to make contract awards for the two fiscal year 2009 LCS seaframes as soon as practicable.

LPD-17

The bill includes \$933,000,000 for the first year of split funding for the LPD-26. The Navy is directed to budget for the remaining funding requirement in fiscal year 2010.

SURFACE COMBATANT FUNDING

The bill includes \$1,507,603,000 for the first year of split funding for the DDG-1000 program. The Navy is directed to budget for the remaining funding requirement in fiscal year 2010 and to award a construction contract consistent with the ship's current acquisition schedule and the Joint Requirements Oversight Council (JROC) review described in the next section. The bill also includes \$200,000,000 in advance procurement funding to preserve the option to restart the DDG-51 class destroyer program.

SURFACE COMBATANT REVIEW

The Navy's recent decision to truncate production of the DDG-1000 Zumwalt Class destroyers and restart production of the DDG-51 Arleigh Burke Class destroyers will require a program review by the Joint Requirements Oversight Council (JROC). Therefore, the Department is directed to complete a JROC program review, as expeditiously as possible, that examines the Navy's proposal and addresses the warfighting requirements implications of this decision and revalidates future surface combatant warfighting requirements prior to the obligation of any fiscal year 2009 procurement funds for either destroyer program.

SHIPBUILDING INDUSTRIAL BASE STUDY

The Department's Cost Analysis Improvement Group is conducting a study of the shipbuilding industrial base. The Secretary of Defense is directed to submit the results of that study to the congressional defense committees upon its conclusion.

COMMON AVIATION COMMAND AND CONTROL SYSTEM (CAC2S)

CAC2S is intended to be a modernized, single command and control system designed to replace and consolidate legacy aviation command and air control systems. Since entering the System Design and Demonstration phase in 2002, the program has faced repeated technical hurdles and schedule delays. As a result, the Marine Corps in June altered its acquisition strategy, but did not provide detailed schedules and cost estimates in support of the new acquisition strategy to Congress. The bill provides \$10,000,000 for CAC2S in fiscal year 2009, a reduction of \$39,339,000, and directs that none of those funds may be obligated until 10 days after the Marine Corps provides updated program details to the congressional defense committees, to include cost estimates and program schedules. It is noted that in the interim, significant amounts of prior year funding remain available to continue the upgrade of legacy systems.

MINUTEMAN III MOTOR LIFE EXTENSION PROGRAM

The House and the Senate Committees on Appropriations are awaiting an Air Force report requested in Senate Report 110–155 accompanying the Department of Defense Appropriations Act for Fiscal Year 2008, on the capability of the defense industrial base to maintain, modernize, and sustain the Minuteman III system until 2030, and on the industrial base's capability to replace the Minuteman III with a follow-on land-based strategic deterrent system after 2030. In the interim, the Air Force is encouraged, at a minimum, to continue a warm line status for Minuteman III propulsion systems and to use funds provided for fiscal year 2009 to initiate a Minuteman III motor life extension program.

PROCUREMENT OF AMMUNITION, AIR FORCE

OTHER PROCUREMENT, AIR FORCE BUDGET JUSTIFICATION
DOCUMENTS

During its budget review, the congressional defense committees rely on justification documents. It is critical that these budget justifications adhere to the guidelines set forth in Department of Defense Financial Management Regulations (FMR). The regulations clearly state that all exhibits must include production schedules and, when appropriate, both quantity and unit cost information. The Other Procurement, Air Force (OPAF) justification book for fiscal year 2009 includes few production schedules, and most P-5 forms omit quantity and unit cost information. In order to remedy these omissions, the Air Force is directed to take corrective actions to ensure its justification books fully comply with FMR regulations.

NATIONAL GUARD AND RESERVE EQUIPMENT

The bill provides \$750,000,000 for the National Guard and Reserve Equipment Account. Of that amount, \$480,000,000 is for the Army National Guard; \$105,000,000 for the Air National Guard; \$52,500,000 for the U.S. Army Reserve; \$37,500,000 for the Navy Reserve; \$37,500,000 for the Marine Corps Reserve; and \$37,500,000 for the Air Force Reserve to meet urgent equipment needs that may arise this fiscal year.

The funding provided in the National Guard and Reserve Equipment Account shall be executed by the heads of the Guard and reserve components with priority consideration for miscellaneous equipment given to items listed in the "Essential 10 Equipment Requirements for the National Guard" as identified by the Chief, National Guard Bureau, and as defined in the unfunded priority list for each reserve component.

This funding will allow the Guard and reserve components to procure high priority items such as: AB-FIST Gunnery Trainer Upgrades; Advanced Targeting Pod Spiral Upgrade Kits; AESA—Scanned Array Radar; AH-64 helicopter conversion from A model to D model; Advanced Mission Extender Device; ARC-220 radios for UH-60 Black Hawks; Ambulance Trucks; AN/AAQ-24 (LAIRCM) for C-17, C-130, and KC-135R; AN/AVS-6; Armored Security Vehicles; Bradley Operation Desert Storm Situational Awareness (ODS SA) hardware kits; Combat Readiness Training Centers (CRTC); Combined Arms Virtual Trainers; Electronic Flight Information System upgrades and MPRS Modification Programs for KC-135R; EPLRS Microlite; Engine Kits to Modify the F 100-PW to the 220E configuration; Fuel Service tank trucks; Defense Advanced GPS Receivers; F-15 Advanced Radar Warning Receiver (RWR) Subset of Eagle Passive Active Warning Survivability System (EPAWSS); F-15 Embedded GPS/INS (EGI); F-15 Joint Helmet Mounted Cueing System (JHMCS); F16 Block 42 Engine Upgrades; F-16 Full Combat Mission Trainer (FCMT); Fuel Catalyst Vehicle Retrofit; HC-130 AN/ARS-6v12 Recovery Systems; HC-130 Multi Function Color Display; Heavy Expanded Mobility Truck Wreckers with winch; Infrared Aircraft Deicing systems; HH-60 Blackhawk medical evacuation helicopters; Integrated Mechanical Diagnostic-Health and Usage Monitoring system; Integrated Terrestrial and Satellite Emergency Communications Capability (ITSECC); Joint Threat Emitter (JTE) Production Acceleration; Large Aircraft Infrared Counter-Measures; M1151 Up-Armored HMMHV; M249 Machine Gun; M2 .50 Caliber Machine Gun; M777A2 Lightweight 155MM Howitzer; Mine Resistant Ambush Protected Vehicle Virtual Trainers; Minuteman Digitization Demonstration; Panoramic Night Vision for HH-60s; Reset additional Bradley Fighting Vehicle System (BFVS) M2/3 ODS vehicles to the BFVS M2/3 ODS SA configuration; Rover III Receiver; Small Scale Joint Service Transportable Decontamination System; T56 engine mod kits; Tactical Cargo Trucks; Tandem Tether Parachutes; Tank Gunnery Trainer, Tank Maneuver Trainer and Tabletop Full-fidelity Trainer (TGT, TMT, and TFT) Tabletop Trainers; Technisonic TDFM-6148; UH-60 A to L conversions; Telepresent Rapid Aiming Platform (TRAP); UHF/VHF radios; Upgrade of

Eagle Vision VI; VCC+ (Very High Speed Integrated Circuitry Central Computer (VHSICC) Plus); Virtual Convoy Operations Trainers; and Virtual Door Gunner Trainers.

MODERNIZATION PRIORITIES

Each National Guard and reserve component commander shall submit to the congressional defense committees a detailed assessment of that component's modernization priorities, not later than 30 days after enactment of this Act. The National Guard and reserve component commanders should exercise control of the funds provided in this account, to better ensure that the most urgent National Guard and reserve equipment modernization priorities are addressed with the funding provided in this appropriation.
