*Note.*—For comparability, an adjustment should be made for the Low Income Home Energy Assistance Program (LIHEAP), which was funded in the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009. After the LIHEAP adjustment, the fiscal year 2010 funding level for the Department of Health and Human Services (HHS) is \$46,459,000,000 more than the comparable fiscal year 2009 funding level. In addition, as requested, the Committee bill includes a one-time transfer of all remaining balances in the Project BioShield Special Reserve Fund from the Department of Homeland Security to HHS. The amount to be transferred is currently estimated to be \$1,569,000,000.

As a result of the LIHEAP comparability adjustment for HHS described above, the fiscal year 2010 Grand Total, current year for the Committee bill is \$57,366,000,000 more than the comparable fiscal year 2009 funding level. Further, the Current year total using 302(b) scorekeeping for the fiscal year 2010 Committee bill is \$56,165,000,000 more than the comparable fiscal year 2009 funding level. The discretionary amount within the Current year total using 302(b) scorekeeping for the fiscal year 2010 Committee bill

## TITLE II—DEPARTMENT OF HEALTH AND HUMAN SERVICES

For fiscal year 2010, the Committee recommends a discretionary program level total of \$73,720,604,000 for the Department of Health and Human Services (HHS), which is \$7,435,858,000 above the fiscal year 2009 funding level and \$1,962,852,000 above the budget request. For comparability, an adjustment should be made for the Low Income Home Energy Assistance Program (LIHEAP), which was funded in the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009. After the LIHEAP adjustment, the Committee's fiscal year 2010 discretionary program level for HHS is \$2,335,858,000 above the comparable fiscal year 2009 funding level. In addition, as requested, the Committee bill includes a one-time transfer of all remaining balances in the Project BioShield Special Reserve Fund from the Department of Homeland Security to HHS. The amount to be transferred is currently estimated to be \$1,569,000,000. The Recovery Act provided \$21,917,000,000 in discretionary resources for such activities as community health care services, public health prevention and wellness activities, health information technology, children and community support services, and scientific and health care research. This funding will increase access to health care, protect those in greatest need, create jobs, expand educational opportunities, lay the groundwork for successful health reform, and provide relief to States and local communities as they struggle to provide safety net health and social services to growing numbers of Americans who need assistance during the current economic downturn.

### HEALTH RESOURCES AND SERVICES ADMINISTRATION

#### HEALTH RESOURCES AND SERVICES

For fiscal year 2010, the Committee includes a program level total of \$7,330,817,000 for Health Resources and Services programs, which is \$71,381,000 above the fiscal year 2009 funding level and \$179,117,000 above the budget request. The Health Resources and Services Administration (HRSA) supports programs that provide health services to disadvantaged, medically underserved, and special populations; decrease infant mortality rates; assist in the education of health professionals; and provide technical assistance regarding the utilization of health resources and facilities.

#### *Community Health Centers*

The Committee provides \$2,190,022,000 for Community Health Centers (CHCs), which is the same as the fiscal year 2009 funding level and the budget request. The Recovery Act provided an additional \$2,000,000,000 for CHCs for fiscal years 2009 and 2010. These funds support CHCs, Migrant Health Centers, Health Care for the Homeless, and Public Housing Health Service grants. Funding will support the care of 17 million patients in over 7,500 service delivery sites nationwide. CHCs provide a medical home for underserved and disadvantaged populations. More than 90 percent of patients have incomes below 200 percent of poverty and 40 percent are uninsured. If health reform increases access for the uninsured,

### *Family Planning*

The Committee provides \$317,491,000 for the Family Planning program, which is \$10,000,000 above the fiscal year 2009 funding level and the same as the budget request. In fiscal year 2010, the program is expected to serve 5.2 million low-income women and men at 4,500 clinics nationwide. This funding level will allow the program to prevent over one million unintended pregnancies.

The program provides grants to public and private non-profit agencies to support a range of family planning and reproductive services, as well as related preventive health services, such as patient education and counseling; breast and cervical cancer examinations; STD and HIV prevention education, counseling, testing and referral; and pregnancy diagnosis and counseling. The program is the only source of health care for many of its clients.

### *Healthcare-related Facilities and Other Programs*

The Committee includes \$179,330,000 for construction and renovation (including equipment) of health care and other facilities and other health-related activities. The budget request does not include funding for this purpose. HRSA should use no more than one percent of the funds allocated for projects for agency administrative expenses. The bill includes funding for the following projects in the following amounts:
