DIVISION D—DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2010, put in place by this division incorporates the following agreements of the managers. Funds for the individual programs and activities within the accounts in this division are displayed in the detailed table at the end of the statement of the managers for this Act. Funding levels that are not displayed in the detailed table are identified within this statement of the managers. All references within this explanatory statement to the Recovery Act mean the American Recovery and Reinvestment Act of 2009 (Public Law 111-5).

In implementing this conference agreement, the Departments and agencies should be guided by the language and instructions set forth in House Report 111-220 and Senate Report 111-66 accompanying the bill, H.R. 3293. In cases where the language and instructions in either report specifically address the allocation of funds, each has been reviewed by the conferees and those that are jointly concurred in have been endorsed in this explanatory statement.

In cases in which the House or the Senate report requests or directs the submission of a report, such report is to be submitted to both the Committees on Appropriations of the House of Representatives and the Senate.

Section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this division, including the requirement to make a written request to the Committees on Appropriations of the House of Representatives and the Senate 15 days prior to reprogramming, or to the announcement of intent to reprogram funds in excess of 10 percent or \$500,000, whichever is less, between programs, projects, and activities.

Departments and agencies funded in this division shall submit statements on the effect of this Act to the Appropriations Committees within 45 days of enactment of this Act, pursuant to section

518. The Committees on Appropriations of the House of Representatives and the Senate expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects, and activities, particularly in accounts where the final appropriation is different than that of the budget request. Further, these statements also shall include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2010 budget.

TITLE I

DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$3,828,530,000 for Training and Employment Services instead of \$3,802,961,000 as proposed by the House and \$3,798,536,000 as proposed by the Senate. Of the amount appropriated, \$1,772,000,000 is an advance appropriation for fiscal year 2011 as proposed by both the House and the Senate.

Within the total for the Dislocated Worker Assistance National Reserve, the conference agreement does not include bill language to allow up to \$30,000,000 of this appropriation to be made available to the Career Pathways Innovation Fund as proposed by the Senate. The conferees urge the Secretary to give favorable consideration to grant applications from States whose allotment for dislocated worker employment and training activities in Public Law 111–8 was less than their allotment for such activities in Public Law 110–161. The conference agreement includes bill language to suspend section 173(e) of the Workforce Investment Act (WIA). Section 173(e) of the WIA facilitated the transition from the Job Training Partnership Act formula to the WIA formula; however, the WIA formula has been in effect for a decade and the transition is complete. The conferees note that suspending this provision will allow more funds to be available to respond to natural disasters and mass layoffs. Neither the House nor the Senate proposed a similar provision.

The conference agreement designates \$78,410,000 for migrant and seasonal farmworker formula grants instead of \$78,610,000 as proposed by the House and \$78,310,000 as proposed by the Senate. In addition, the conference agreement designates \$5,700,000 for migrant and seasonal farmworker housing instead of \$5,500,000 as proposed by the House and \$5,800,000 as proposed by the Senate.

Within the amount provided for Pilots, Demonstrations and Research, the conference agreement includes \$30,000,000 for a new competitive grant program to provide transitional jobs activities instead of \$35,000,000 as proposed by the House and \$40,000,000 as proposed by the Senate. The conference agreement provides an additional \$15,000,000 for these activities within the Reintegration of Ex-Offenders program, resulting in a total of \$45,000,000 for transitional jobs activities. The conferees direct the Department of Labor to consult with the Department of Health and Human Serv-

~~Services to amend regulations by May 1, 2010 regarding financial conflict of interest among National Institutes of Health extramural investigators and institutions. The House did not propose a similar provision.~~

~~The conferees are concerned that occurrences of conflict of interest among extramural grantees are investigated only when a complaint is received by the Department of Health and Human Services Office of Research Integrity. The conferees encourage NIH to develop a system for periodic review of conflict of interest documentation at extramural institutions to give some assurance that the new conflict of interest regulations have an effect.~~

TITLE III

DEPARTMENT OF EDUCATION

EDUCATION FOR THE DISADVANTAGED

The conference agreement includes \$15,914,666,000 for Education for the Disadvantaged instead of \$15,938,215,000 as proposed by the House and \$15,891,132,000 as proposed by the Senate. The conference agreement provides \$5,073,490,000 in fiscal year 2010 and \$10,841,176,000 in fiscal year 2011 funding for this account.

For Title I School Improvement Grants, the conference agreement includes bill language permitting fiscal year 2010 appropriations and funds appropriated under the Recovery Act for these grants to be used by local educational agencies to serve any Title I, part A-eligible school that has not made adequate yearly progress for at least two years or is in a State's lowest quintile of performance based on proficiency rates and, in the case of secondary schools, priority shall be given to those schools with graduation rates below 60 percent. Both the House and Senate proposed similar language.

The conference agreement modifies bill language proposed by the Senate permitting the Secretary to establish minimum and maximum subgrant sizes applicable to fiscal year 2010 and Recovery Act funds for Title I School Improvement Grants. The conference agreement includes bill language permitting each State educational agency to award subgrants of up to \$2,000,000 in size for each school eligible for Title I School Improvement Grants funding. The House did not propose similar language.

For school improvement activities authorized under section 1003(a) of the Elementary and Secondary Education Act (ESEA), the conference agreement includes a technical clarification in bill language as proposed by the Senate clarifying that Title I funds appropriated in the Recovery Act are excluded from the calculation of amounts States may reserve for school improvement activities under section 1003(a) of the ESEA. The House proposed similar language.

The conference agreement does not include bill language proposed by the House requiring each State educational agency to ensure that not less than 50 percent of its allocation under Title I School Improvement Grants is used for evidence-based reading instruction. The Senate did not propose a similar provision. The con-

ferrees encourage the Department to work with State educational agencies to ensure that evidence-based reading instruction is embedded in school turnaround strategies for low-performing schools.

The conference agreement does not include bill language reserving \$30,000,000 of Title I School Improvement Grants for competitive awards to local educational agencies located in counties in Louisiana, Mississippi, and Texas that were affected by Hurricanes Katrina, Ike, or Gustav, and specifying certain uses of these funds as proposed by the Senate. The House did not propose a similar provision. Instead, the conference agreement includes bill language providing \$12,000,000 for competitive awards to Gulf Coast schools under the Fund for the Improvement of Education.

The conference agreement does not include bill language proposed by the Senate requiring each State educational agency to ensure that 40 percent of its allocation under Title I School Improvement Grants is spent on improvement activities in middle and high schools, unless the State educational agency makes a determination that all middle and high schools can be served with a lesser amount. The House did not propose a similar provision.

For the Striving Readers program, the conference agreement modifies bill language proposed by the Senate designating funds under section 1502 of the ESEA for a comprehensive literacy program, including pre-literacy skills, reading, and writing, for students from birth through grade 12. Of the total provided for this initiative, certain funds are reserved: (1) \$10,000,000 for formula grants to States to support State Literacy teams, (2) one-half of one percent for the Secretary of Interior for the Bureau of Indian Education, (3) one-half of one percent for outlying areas, (4) and up to five percent for national activities conducted by the Secretary of Education. The remainder of the funds must be used for competitive awards to State educational agencies, of which up to five percent may be used for State leadership activities and not less than 95 percent shall be awarded as subgrants to local educational agencies or other entities, giving priority to such agencies or entities serving greater numbers or percentages of disadvantaged children. The conference agreement provides that State subgrants must be allocated as follows: (1) at least 15 percent to serve children from birth through age five, (2) 40 percent to serve students in kindergarten through grade five, and (3) 40 percent to serve students in middle and high school, through grade 12, including an equitable distribution of funds between middle and high schools. Eligible entities receiving comprehensive literacy program subgrants must use these funds for services and activities that have certain characteristics of effective literacy instruction. The House proposed other funding designations for adolescent literacy, early literacy, and national activities and evaluation related to early childhood and adolescent literacy.

The conferees direct the Department to prepare an implementation plan for K-12 literacy-related activities including, but not limited to, activities under Title I School Improvement Grants, Striving Readers, Reading is Fundamental, Reach Out and Read, and the Institute of Education Sciences, as proposed by the House. The Senate report did not propose similar report language. This plan shall be submitted to the Committees on Appropriations of the

House of Representatives and the Senate not later than 30 days prior to release of a request for proposals under the Striving Readers program.

The conferees request that the Department of Education Office of Inspector General (OIG) continue to monitor the Department's implementation of procedures to identify, disclose, and manage potential conflicts of interest, as the Department implements this new comprehensive reading initiative. The conferees request that the OIG submit a report to the Committees on Appropriations of the House of Representatives and the Senate within one year after enactment of this Act assessing the adequacy of such procedures.

Within the amount for the High School Graduation initiative, the conference agreement provides that up to \$5,000,000 may be used for peer review, technical assistance, dissemination, evaluation, and other national activities as proposed by both the House and the Senate. The conferees direct the Department to provide a briefing to the Committees on Appropriations of the House of Representatives and the Senate on the planned uses of funds for this initiative not less than 30 days prior to a request for proposals as proposed by the House. The Senate did not propose similar report language.

The conference agreement does not include bill language proposed by the Senate specifying that funds for School Renovation shall be allocated under the terms and conditions of S. 1121 (School Building Fairness Act of 2009), as introduced in the Senate on May 21, 2009. The House did not propose a similar provision.

IMPACT AID

The conference agreement includes \$1,276,183,000 for Impact Aid instead of \$1,290,718,000 as proposed by the House and \$1,265,718,000 as proposed by the Senate. In addition, the conference agreement includes bill language providing one-year availability of funds for Impact Aid construction grants as proposed by the Senate instead of two-year availability of funds as proposed by the House.

SCHOOL IMPROVEMENT PROGRAMS

The conference agreement includes \$5,228,444,000 for the School Improvement Programs account instead of \$5,244,644,000 as proposed by the House and \$5,197,316,000 as proposed by the Senate. The conference agreement provides \$3,547,003,000 in fiscal year 2010 and \$1,681,441,000 in fiscal year 2011 funding for this account.

Within the amount provided for Teacher Quality State Grants, the conference agreement includes \$5,000,000 to continue a national initiative to recruit, train, and support results-oriented, highly motivated individuals to lead high-need schools with a focus on raising the achievement of all students and closing the achievement gap in these schools. New Leaders for New Schools (NLNS) shall utilize these funds to support the organization's efforts to develop and deliver training for aspiring principals and support for principals, and conduct research to create a national knowledge base to inform the recruitment, selection, and training of principals

for high-need schools. NLNS and its partners shall provide not less than a 150 percent match in cash or in-kind for the Federal funds provided for this initiative. The match may consist of cash or in-kind offerings by private philanthropy or public sources, including funding allocated by partner State and school systems, and may be used for any purpose related to the program's recruitment, training, and residencies for aspiring principals, the ongoing coaching and support of those school leaders, as well as related research activities. The House proposed funding for this initiative under School Leadership in Innovation and Improvement. The Senate did not propose a similar provision.

For the Education Technology program, the conference agreement includes bill language permitting funds reserved for national activities to be used for activities authorized under section 802 of the Higher Education Opportunity Act. Neither the House nor the Senate proposed similar language.

For the Foreign Language Assistance program, the conference agreement designates \$9,729,000 as proposed by the Senate for five-year grants to local educational agencies that work in partnership with higher education institutions to establish articulated programs of study in national security-related languages. The House proposed \$9,360,000.

The conference agreement includes bill language proposed by the Senate that allows funds under the Education of Native Hawaiians program to be used for construction, renovation, and modernization of any elementary school, secondary school, or related structure run by the Department of Education of the State of Hawaii that serves a predominantly Native Hawaiian student body. The House proposed similar language.

The conference agreement also modifies bill language proposed by the Senate to designate, within the amount provided for the Education of Native Hawaiians program, not less than \$1,500,000 to the Hawaii Department of Education for school construction/renovation activities, \$1,500,000 for the University of Hawaii's Center of Excellence in Native Hawaiian Law, and \$500,000 for the Henry K. Guigni Memorial Archives at the University of Hawaii as authorized under part Z of title VIII of the Higher Education Act. The House did not propose similar language.

The conference agreement does not include bill language proposed by the House that permits the Secretary of Education to implement the Alaska Native Education Equity program without regard to earmarks included in the program's authorizing statute. The Senate did not propose similar language.

INDIAN EDUCATION

The conference agreement includes \$127,282,000 for Indian Education instead of \$132,282,000 as proposed by the House and \$122,282,000 as proposed by the Senate.

INNOVATION AND IMPROVEMENT

The conference agreement includes \$1,389,065,000 for Innovation and Improvement instead of \$1,347,363,000 as proposed by the House and \$1,234,787,000 as proposed by the Senate.

For the Advanced Credentialing program, the conference agreement specifies \$10,649,000 for the National Board of Professional Teaching Standards (NBPTS) as proposed by the Senate. The agreement does not include the House proposal to designate \$1,000,000 of these funds in bill language for a certification program for principals of elementary and secondary schools.

For Teach for America (TFA), the conference agreement provides \$18,000,000 as authorized under part F of title VIII of the Higher Education Act. The House proposed \$15,000,000 for TFA under the Fund for the Improvement of Education for this activity and the Senate proposed \$20,000,000 under the Higher Education Act.

For the Charter School program, the conference agreement includes bill language as proposed by the Senate to permit the Secretary of Education to use up to \$23,082,000 for the Per-Pupil Facilities Aid program and the Credit Enhancement for Charter School Facilities program. The agreement modifies language proposed in both the House and Senate bills to allow the Secretary to reserve up to \$50,000,000 to make multiple awards to nonprofit charter management organizations and other entities that are not for-profit entities for replication and expansion of successful charter school models.

The conference agreement also modifies bill language for the Charter School program proposed by the House mandating that the Secretary of Education reserve \$10,000,000 to carry out technical assistance, including such assistance to authorized public chartering agencies in order to increase the number of high-performing charter schools; and that each Charter School program application describe a plan to monitor and hold accountable authorized public chartering agencies through such activities as providing technical assistance or establishing a professional development program. The bill language also mandates that each Charter School program application contain assurances that State law, regulations, or other policies require: (1) each authorized charter school in the State to operate under a legally binding charter or performance contract, conduct audits, and demonstrate improved achievement; and (2) authorized public chartering agencies to use increases in student achievement for all groups of students as the most important factor in renewing or revoking a school's charter. The Senate did not propose similar language.

Finally, for the Charter School program, the conference agreement includes bill language requiring the Department to submit a report describing the planned uses of certain funds prior to their obligation. Neither the House nor the Senate proposed similar language.

For the Teacher Incentive Fund (TIF), the conference agreement includes bill language as proposed by the Senate that: (1) requires TIF grantees to demonstrate that teacher performance-based compensation systems are developed with the input of teachers and school leaders, (2) permits TIF grantees to use funds to develop or improve systems and tools to enhance the quality and success of teacher compensation systems, and (3) requires applications for TIF grants to include a plan to sustain financially the activities

conducted and systems developed once the grant period has expired. The House did not propose these provisions.

Within the funds provided for TIF, approximately \$220,000,000 will be used to continue fiscal year 2009 awards and the remaining funds will be available for new awards, training, technical assistance, evaluation and peer review activities.

For Erma Byrd Scholarships, the conference agreement includes bill language designating \$1,500,000 as proposed by the Senate. The House proposed \$1,000,000 for these scholarships, which are intended to increase the size of the industrial health and safety workforce in the public and private sectors.

For the Model Comprehensive Transition and Postsecondary Programs for Students with Intellectual Disabilities, the conferees intend that the Department support a range of awards in size and scope, up to \$1,000,000 for each year of the award year, to promote the implementation of high-quality model programs and to provide a better understanding of an array of effective practices. The conferees direct that the Department provide a briefing to the Committees on Appropriations of the House of Representatives and the Senate not less than 30 days prior to the release of a request for proposals.

For TRIO, the conferees intend that the increase over fiscal year 2009 be used for the Student Support Services program, which will be re-competed in fiscal year 2010. The conferees recognize that supportive services aimed at increasing retention and graduation of low-income students in college are an important complement to student financial aid, particularly the Pell Grant program. Many such retention services are supported through Student Support Services grants. Thus, the conferees intend that the funds provided will maintain the number of Student Support Services grantees.

HISTORICALLY BLACK COLLEGE AND UNIVERSITY CAPITAL
FINANCING PROGRAM

The conference agreement includes \$20,582,000 for the Historically Black College and University Capital Financing Program as proposed by the House instead of \$10,354,000 as proposed by the Senate.

INSTITUTE OF EDUCATION SCIENCES

The conference agreement includes \$659,006,000 for the Institute of Education Sciences (IES) instead of \$664,256,000 as proposed by the House and \$679,256,000 as proposed by the Senate. The conference agreement specifies that \$588,356,000 of total IES funding shall be available through fiscal year 2011.

Within the amount provided for IES Research, Development, and Dissemination, the conference agreement includes \$1,000,000 for a national study on minority male achievement as described in section 1109 of the Higher Education Act. The House proposed \$2,000,000 for this activity, while the Senate did not propose a similar provision.

Within the amount provided for IES Research, Development, and Dissemination, the conference agreement includes \$2,000,000 for a new research and development center for adult learning and literacy, as outlined in House Report 111-220. The Senate did not propose a similar provision.

The conferees are concerned about actions taken by IES that leave the impression that it is not subject to the same level of oversight and accountability as any other agency of the Department that receives and is responsible for allocating appropriated funds. In the fiscal year 2010 congressional budget justification, IES indicated that it would adhere to a congressional limitation included in the fiscal year 2009 explanatory statement of \$8,023,000 for the What Works Clearinghouse (WWC). However, the IES increased its allocation to WWC by more than one-third above this amount, without any notification to the Committees on Appropriations that spending information presented in budget documents would not be followed. The Committee expects the IES to adhere to funding limits and guidance established by the Committees on Appropriations.

In addition, responses to requests for information about IES activities regularly come in later than most other agencies and the congressional budget justification provides limited information about the specific spending plans of the IES and the proposed allocation of resources. The conferees strongly support the mission of the IES, but believe the IES should make a greater effort to communicate clearly its plans for and use of taxpayer resources. Therefore, the conferees direct the IES to submit an operating plan to the Committees on Appropriations within 30 days of enactment of this Act and quarterly reports thereafter that describe planned research, development, and dissemination activities; actions taken to implement such activities; and amounts obligated for each activity at the level of detail and in the format shown in the program output measures displayed in the fiscal year 2010 congressional budget justification.

DEPARTMENTAL MANAGEMENT

PROGRAM ADMINISTRATION

The conference agreement includes \$456,200,000 for Program Administration instead of \$452,200,000 as proposed by both the House and Senate. These amounts are the same levels as proposed by the House and the Senate. Moreover, the conference agreement includes bill language allowing up to \$34,000,000 of the additional funds to be available for asset verification initiatives if the Office of the Chief Actuary determines that such initiatives would be at least as cost effective as redeterminations of eligibility as proposed by the House. The Senate bill contained a similar provision.

The conference agreement includes a general provision proposed by the House prohibiting the use of funds in this Act to process claims for credit for quarters of coverage based on work performed under a Social Security number that is not the claimant's number and the performance of such work under such number has formed the basis for a conviction of the claimant of a violation of section 208(a)(6) or (7) of the Social Security Act.
