Note.—For comparability, an adjustment should be made for the Low Income Home Energy Assistance Program (LIHEAP), which was funded in the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009. After the LIHEAP adjustment, the fiscal year 2010 funding level for the Department of Health and Human Services (HHS) is \$46,459,000,000 more than the comparable fiscal year 2009 funding level. In addition, as requested, the Committee bill includes a one-time transfer of all remaining balances in the Project BioShield Special Reserve Fund from the Department of Homeland Security to HHS. The amount to be transferred is currently estimated to be \$1,569,000,000.

As a result of the LIHEAP comparability adjustment for HHS described above, the fiscal year 2010 Grand Total, current year for the Committee bill is \$57,366,000,000 more than the comparable fiscal year 2009 funding level. Further, the Current year total using 302(b) scorekeeping for the fiscal year 2010 Committee bill is \$56,165,000,000 more than the comparable fiscal year 2009 funding level. The discretionary amount within the Current year total using 302(b) scorekeeping for the fiscal year 2010 Committee bill

TITLE II—DEPARTMENT OF HEALTH AND HUMAN SERVICES

For fiscal year 2010, the Committee recommends a discretionary program level total of \$73,720,604,000 for the Department of Health and Human Services (HHS), which is \$7,435,858,000 above the fiscal year 2009 funding level and \$1,962,852,000 above the budget request. For comparability, an adjustment should be made for the Low Income Home Energy Assistance Program (LIHEAP), which was funded in the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009. After the LIHEAP adjustment, the Committee's fiscal year 2010 discretionary program level for HHS is \$2,335,858,000 above the comparable fiscal year 2009 funding level. In addition, as requested, the Committee bill includes a one-time transfer of all remaining balances in the Project BioShield Special Reserve Fund from the Department of Homeland Security to HHS. The amount to be transferred is currently estimated to be \$1,569,000,000. The Recovery Act provided \$21,917,000,000 in discretionary resources for such activities as community health care services, public health prevention and wellness activities, health information technology, children and community support services, and scientific and health care research. This funding will increase access to health care, protect those in greatest need, create jobs, expand educational opportunities, lay the groundwork for successful health reform, and provide relief to States and local communities as they struggle to provide safety net health and social services to growing numbers of Americans who need assistance during the current economic downturn.

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

For fiscal year 2010, the Committee includes a program level total of \$7,330,817,000 for Health Resources and Services programs, which is \$71,381,000 above the fiscal year 2009 funding level and \$179,117,000 above the budget request. The Health Resources and Services Administration (HRSA) supports programs that provide health services to disadvantaged, medically underserved, and special populations; decrease infant mortality rates; assist in the education of health professionals; and provide technical assistance regarding the utilization of health resources and facilities.

Community Health Centers

The Committee provides \$2,190,022,000 for Community Health Centers (CHCs), which is the same as the fiscal year 2009 funding level and the budget request. The Recovery Act provided an additional \$2,000,000,000 for CHCs for fiscal years 2009 and 2010. These funds support CHCs, Migrant Health Centers, Health Care for the Homeless, and Public Housing Health Service grants. Funding will support the care of 17 million patients in over 7,500 service delivery sites nationwide. CHCs provide a medical home for underserved and disadvantaged populations. More than 90 percent of patients have incomes below 200 percent of poverty and 40 percent are uninsured. If health reform increases access for the uninsured,

Family Planning

The Committee provides \$317,491,000 for the Family Planning program, which is \$10,000,000 above the fiscal year 2009 funding level and the same as the budget request. In fiscal year 2010, the program is expected to serve 5.2 million low-income women and men at 4,500 clinics nationwide. This funding level will allow the program to prevent over one million unintended pregnancies.

The program provides grants to public and private non-profit agencies to support a range of family planning and reproductive services, as well as related preventive health services, such as patient education and counseling; breast and cervical cancer examinations; STD and HIV prevention education, counseling, testing and referral; and pregnancy diagnosis and counseling. The program is the only source of health care for many of its clients.

Healthcare-related Facilities and Other Programs

The Committee includes \$179,330,000 for construction and renovation (including equipment) of health care and other facilities and other health-related activities. The budget request does not include funding for this purpose. HRSA should use no more than one percent of the funds allocated for projects for agency administrative expenses. The bill includes funding for the following projects in the following amounts:

Telehealth

The Committee provides \$15,000,000 for Telehealth, which is \$7,450,000 above the fiscal year 2009 funding level and \$6,800,000 above the budget request. The Telehealth program works with and supports communities in their efforts to develop cost-effective uses of telehealth technologies. These technologies bring health services to isolated populations and health-related education to the practitioners who serve them.

Program Management

The Committee provides \$146,000,000 for the cost of Federal staff and related activities to coordinate, direct, and manage the programs of HRSA, which is \$3,976,000 above the fiscal year 2009 funding level and \$1,052,000 below the budget request.

The Committee was pleased to learn that HRSA has named a Chief Dental Officer and urges the agency to establish an Office of Oral Health, headed by the Chief Dental Officer, to rebuild the dental regional workforce and provide leadership and oversight of HRSA dental programs.

The Committee urges HRSA to withdraw the proposed guidance for the 340B drug program, "Regarding Section 602 of the Veterans Health Care Act of 1992 Definition of Patient" issued on January 12, 2007 and directs that any subsequent changes to the 340B Patient Definition be issued in proposed form with stakeholders having an opportunity to provide comments. The Committee is concerned that the January 12, 2007 guidelines may dramatically change the degree to which safety net health facilities are able to participate in the program. The Committee also requests that HRSA consider a patient definition permitting safety net health fa-

cilities eligible for grant funding under the Public Health Security and Bioterrorism Preparedness and Response Act of 2002 to use 340B pricing to purchase drugs needed to enhance preparedness for and response to bioterrorism or other public health emergencies. If HRSA chooses not to follow this request, the Committee expects a written explanation before the agency publishes final guidance.

HEALTH EDUCATION ASSISTANCE LOANS PROGRAM ACCOUNT

The Health Education Assistance Loans (HEAL) program insures loans provided by non-Federal lenders to students in health professions schools. Under the accounting rules established in the Budget Enforcement Act of 1990, one account is maintained to pay the obligations arising from loans guaranteed prior to fiscal year 1992. A second account pays obligations and collects income from premiums on loans guaranteed in fiscal year 1992 and beyond. Each annual cohort of loans is independently tracked in this account. The authority for this program expired in fiscal year 1999. Fiscal year 1998 was the last year in which loans were obligated to previous borrowers under the HEAL authority.

The Committee provides \$1,000,000 to liquidate obligations from loans guaranteed prior to 1992, which is the same as the fiscal year 2009 funding level and the budget request.

The Committee provides \$2,847,000 for HEAL program management, which is the same as the fiscal year 2009 funding level and the budget request.

VACCINE INJURY COMPENSATION PROGRAM TRUST FUND

The Committee estimates that \$122,410,000 will be released from the Vaccine Injury Compensation Trust Fund, which is \$3,891,000 above the fiscal year 2009 funding level and the same as the budget request.

The National Vaccine Injury Compensation Program provides a system of compensation for individuals with vaccine-associated injuries or deaths. Funds for claims from vaccines administered on or after October 1, 1988 are generated by a per-dose excise tax on the sale of selected prescribed vaccines. Revenues raised by this tax are maintained in a Vaccine Injury Compensation Trust Fund.

Trust funds made available will support the liability costs of vaccines administered after September 30, 1988. They also will support the \$6,502,000 in costs incurred by HRSA in the operation of the program, which is \$1,098,000 above the fiscal year 2009 funding level and the same as the budget request. These funds are required to maintain current service levels. Program workload is expected to increase by 260 percent from 2008 to 2010 because of the thousands of pending autism cases.

COVERED COUNTERMEASURE PROCESS FUND

The Committee does not make available funding for the Covered Countermeasure Process Fund created in the Public Readiness and Emergency Preparedness Act. The budget requested \$5,000,000 as first-time funding for this activity. Pandemic influenza funding included in the fiscal year 2009 supplemental appropriation, P.L. 111-32, may be used for this purpose.
