TITLE II  
DEPARTMENT OF HEALTH AND HUMAN SERVICES  
HEALTH RESOURCES AND SERVICES ADMINISTRATION  
HEALTH RESOURCES AND SERVICES

Appropriations, 2009 <sup>1</sup> .....	\$9,759,436,000
Budget estimate, 2010 .....	7,151,700,000
House allowance .....	7,331,817,000
Committee recommendation .....	7,263,799,000

<sup>1</sup> Includes \$2,500,000,000 in American Recovery and Reinvestment Act of 2009 funding (Public Law 111-5).

The Committee provides a program level of \$7,263,799,000 for the Health Resources and Services Administration [HRSA]. The Committee recommendation includes \$7,238,799,000 in budget authority and an additional \$25,000,000 via transfers available under section 241 of the Public Health Service Act. The fiscal year 2009 comparable program level was \$9,759,436,000, including \$2,500,000,000 in American Recovery and Reinvestment Act funding. The budget request for fiscal year 2010 was \$7,151,700,000.

HRSA activities support programs to provide healthcare services for mothers and infants; the underserved, elderly, homeless; migrant farm workers; and disadvantaged minorities. This appropriation supports cooperative programs in community health, AIDS care, healthcare provider training, and healthcare delivery systems and facilities.

BUREAU OF PRIMARY HEALTH CARE  
COMMUNITY HEALTH CENTERS

The Committee provides \$2,190,022,000 for the community health centers program. The fiscal year 2009 comparable program level was \$4,190,022,000, including \$2,000,000,000 in American Recovery and Reinvestment Act funding. The budget request for fiscal year 2009 was \$2,190,022,000. This group of programs includes community health centers, migrant health centers, healthcare for the homeless, and public housing health service grants. The Committee continues to support strongly the ongoing effort to increase the number of people who have access to medical services at health centers.

Within the amount provided, the Committee has provided \$44,055,000 under the Federal Tort Claims Act [FTCA] for the Health Centers program. The Committee has included bill language making this funding available until expended and allowing costs associated with the health centers tort liability relief program to be paid from the fund. The Committee intends that the fund be used to pay judgments and settlements, occasional witness fees and

health research centers, the National Advisory Committee on Rural Health, and a reference and information service.

#### *Rural Hospital Flexibility Grants*

The Committee provides \$41,200,000 for rural hospital flexibility grants. The fiscal year 2009 comparable level was \$39,200,000, as was the budget request for fiscal year 2010.

Under this program, HRSA works with the States to provide support and technical assistance to Critical Access Hospitals to focus on quality and performance improvement and to integrate emergency medical services. Of the amount provided, the Committee includes \$39,200,000 to continue the Small Rural Hospital Improvement Grant Program, as authorized by section 1820(g)(3) of the Social Security Act and Public Law 107-116 and outlined in House Report 107-342. The program provides support for small rural hospitals and focuses on quality improvement and adoption of health information technology.

The Committee is aware that the Department of Veterans Affairs, through its Rural Health Initiative, is committed to better serving veterans residing in remote and rural areas. This initiative gives the Secretary of the Department of Veterans Affairs the resources and latitude to collaborate with other Federal or community providers, including rural hospitals serving a large number of veterans. The Committee is strongly supportive of this collaboration and understands that one of the largest barriers to this effort is the lack of electronic medical records that are interoperable with the VISTA system. For that reason, the Committee has included \$2,000,000 for grants authorized under section 1820(g)(6) of the Social Security Act to provide telehealth equipment and to develop electronic health records that are compatible with the VISTA system. The Committee encourages HRSA to coordinate with the Department of Veterans Affairs to ensure that this equipment furthers the goal of treating the illnesses and disabilities of our Nation's veterans. The Committee is particularly concerned with ensuring that veterans receive appropriate mental healthcare.

#### *Delta Health Initiative*

The Committee has included \$40,000,000 for the Delta Health Initiative as authorized in section 219 of division G of Public Law 110-161.

#### *Rural and Community Access to Emergency Devices*

The Committee provides \$1,751,000 for rural and community access to emergency devices, the same as the fiscal year 2009 comparable level and the budget request for fiscal year 2010 did not include funding for this program. This appropriation provides funding for both the rural program under section 413 of the Public Health Service Act and the community access demonstration under section 313. The Committee expects that fiscal year 2010 funding be equally divided between urban and rural communities.

Funding will be used to purchase automated external defibrillators, place them in public areas where cardiac arrests are likely to occur and train lay rescuers and first responders in their use.

uals, regardless of age or marital status. This includes FDA-approved methods of contraception.

The Committee urges HRSA to use the increased funds to augment the awards for existing grantees to offset the rising cost of providing healthcare services. In addition, the Committee encourages HRSA to increase funding to the regional training centers.

The Committee remains concerned that programs receiving title X funds ought to have access to these resources as quickly as possible. The Committee again instructs the Department to distribute to the regional offices all of the funds available for family planning services no later than 60 days following enactment of this bill. The Committee intends that the regional offices should retain the authority for the review, award and administration of family planning funds, in the same manner and timeframe as in fiscal year 2006. The Committee intends that at least 90 percent of funds appropriated for title X activities be for clinical services authorized under section 1001 of the act. The Committee further expects the Office of Family Planning to spend any remaining year-end funds in section 1001 activities.

#### *Healthcare-related Facilities and Activities*

The Committee provides \$157,092,000 for the construction and renovation (including equipment) of healthcare-related facilities and other healthcare-related activities. In fiscal year 2009, \$310,470,000 was provided and the budget request for fiscal year 2010 did not include funding for these activities.

The Committee expects HRSA to use no more than 1 percent of the funds allocated for projects for agency administrative expenses. These funds are to be used for the following projects and in the following amounts:
